Wieldy Homes
Construction, made wieldy.

PRODUCT CATALOGUE · 2026

Concrete capsules, configured to fit.

Two standard precast concrete modules — 100 sq ft and 200 sq ft — engineered to combine into homes, offices, and mid-rise buildings across India. Factory-built, site-assembled, ready in days.

sales@wieldyhomes.com | +91 74163 00561

Concrete capsules, engineered smarter

Our modular concrete system uses lightweight forming and reinforced panels — built to match the strength of traditional precast concrete, without its bulk or its build time.

30–60% faster build

Factory manufacturing runs in parallel with site prep, cutting total timelines sharply.

Controlled-factory precision

Components are made indoors under consistent tolerances, not weather-dependent site work.

Insulated for Indian climate

Panels built with aerogel, PIR, or glass wool cores for year-round thermal comfort.

Predictable budgets

Less labour, less material waste, fewer delays — costs are known upfront.

WIELDY HOMES SYSTEM	TRADITIONAL PRECAST CONCRETE
✓ Flexible forming	✗ Heavy molds
✓ Design freedom	✗ Design limitations
✓ Simple lifting equipment	✗ Large lifting equipment
✓ No heavy transport	✗ Heavy transport vehicles
✓ Low entry barriers on site	✗ Large setup, high entry barriers
✓ Cost-efficient per module	✗ Premium pricing

Two modules, endless layouts

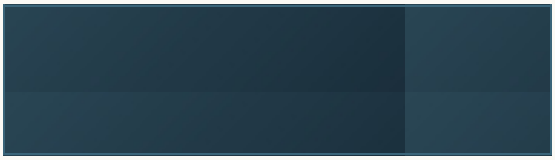

Every Wieldy Homes project is built from two standardized precast concrete capsules. The same pair of components scales from a single studio to a stacked, multi-storey building.

BASE CAPSULE

100 sq ft

3m × 3m footprint

EXTENDED CAPSULE

200 sq ft

6m × 3m footprint

Standardized capsule units combine into single-floor homes, multi-floor dwellings, or mid-rise buildings up to 5 storeys.

SINGLE UNIT

18 sqm

≈200 sq ft

TWO UNITS

27 sqm

≈290 sq ft

COMBINED

36 sqm

≈390 sq ft

EXTENDED

54 sqm

≈580 sq ft

Standardized system. Flexible configuration. Multiple footprints. Stacks up to 5 floors — single-floor dwellings, multi-floor homes with flat or sloped roofs, and mid-rise buildings all use the same two base capsules.

1

Design & quote

Share your site and requirements — get a layout and a fixed estimate.

2

Factory manufacture

Panels and capsules are cast indoors under controlled tolerances.

3

Site preparation

Foundation and utilities are readied in parallel with manufacturing.

4

On-site assembly

Capsules are craned into place and finished — typically in days.

Layout options — 200 & 300 sq ft

Each footprint ships as a set of pre-engineered layouts — pick the option that fits the site, not a custom redraw.

200 Sq Ft · Option 1

Toilet 4′0″ × 9′0″
Bed Room
Foyer

10′ × 20′ FOOTPRINT

200 Sq Ft · Option 2

Toilet 4′6″ × 9′0″
Wash area
Bed Room

10′ × 20′ FOOTPRINT

300 Sq Ft · Option 1

Toilet 4′6″ × 9′0″	Outdoor balcony / garden
Bed Room	Living

≈20′ × 20′ FOOTPRINT

300 Sq Ft · Option 2

Toilet	Outdoor balcony / garden
Bed Room	Living

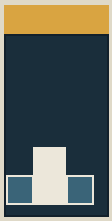

≈20′ × 20′ FOOTPRINT

300 Sq Ft · Option 3

Toilet	Pantry kitchen
Bed Room	Living
Store	

20′ × 20′ FOOTPRINT

100 SQ FT

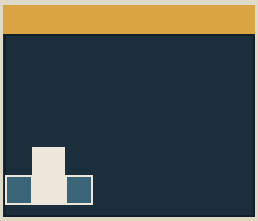

Single capsule · 3m × 3m × 3m · simple box cabin

200 SQ FT

Two-tone capsule cabin · 6m × 3m × 3m · covered entry porch

300 SQ FT

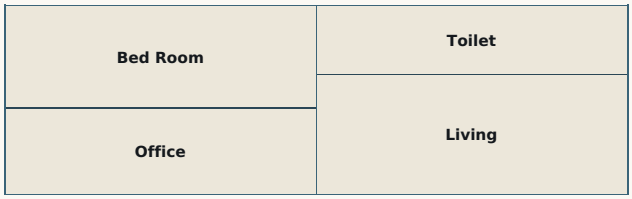

Two-module combine · mono-slope roof · ≈10 ft eave height

Layout options — 400 & 600 sq ft

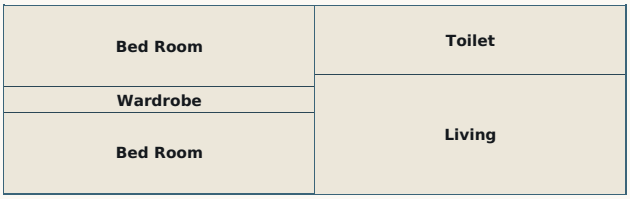

Larger footprints combine the same base capsules into 1BHK, 2BHK, and courtyard-plan layouts.

400 Sq Ft · Option 1

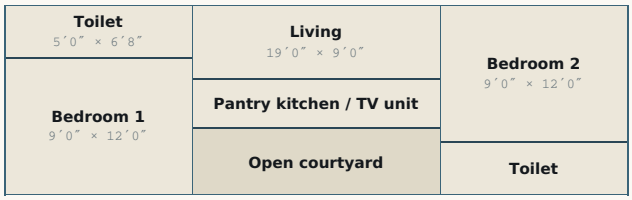

20′ × 20′ FOOTPRINT

400 Sq Ft · Option 2

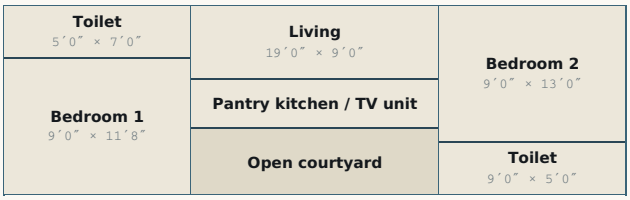

20′ × 20′ FOOTPRINT

600 Sq Ft · Option 1

L-SHAPED · ≈20′ × 30′ WITH CENTRAL COURTYARD

600 Sq Ft · Option 2

L-SHAPED · ≈20′ × 30′ WITH CENTRAL COURTYARD

400 SQ FT

Elevated pod · stacked capsule with rooftop deck

600 SQ FT

Villa-style elevation · hip roof, courtyard entry

One system, five kinds of buildings

The same modular capsule-and-frame system scales from a single farmhouse to a full hospital wing.

Villas & farmhouses

2BHK and 3BHK layouts with living areas, verandas, and finish options ready in weeks, not years.

Commercial spaces

Offices, showrooms, and retail units designed for fast turnaround and everyday durability.

Industrial structures

Reinforced modules for cold storage, site offices, and manufacturing support buildings.

Healthcare & education

Hygienic, fireproof classrooms, hostels, clinics, and hospital wards for rapid deployment.

Modular housing projects

Staff accommodation, site offices, and labour camps that can expand as project needs grow.

Portable houses

Relocatable, foundation-free units for temporary sites, remote locations, or projects that need to move.

ENTRY POINT

200 sq ft capsule / module

Starting ₹5L

Base unit only

400 SQ FT – 600 SQ FT 2BHK UNIT (BUILT FROM COMBINED CAPSULES)

ECONOMIC

₹10L

Essential finishes, full functionality.

STANDARD

₹15L

Balanced finishes and durability.

LUXURY

₹20L

Premium flooring, fittings, and insulation.

MODERN

₹25L

Contemporary design with top-tier materials.

→ Actual cost per sq ft varies with material choice, city, and site accessibility. Request a site-specific quote for an exact number.
